

What do we do in Carpentry at the High School of the Sea ?

At the High School of the Sea in carpentry, furniture such as coffee tables or benches and all other indoor and outdoor furniture are made by joiners-to-be.

The greatest creations in carpentry are :

- presentation stands for supermarkets and for open days
- formwork for arcade posts.

Which creations are highly appreciated by the students ?

Students appreciate the furniture they have made and can take home.

What is the next big project for the year 2021?

The next big project will be a henhouse in the shape of a stitied hut, the famous hut of the Arcachon Bay, in a reduced size of course, and the students will be able to take a copy back home.

The High School of the Sea : an ideal place to study.

The site is agreeable and the atmosphere is friendly.

The high school is situated in the middle of the Arcachon Bay between the port, the oyster farms and the bicycle path which leads to the railway station (10 min on foot).
